Team 8 - "iWent" - Usability Tests

In the following you should test our web-application, "iWent - Your Event Management Platform". Please note, that not everything may be working fully as intended yet.

You will receive different tasks. Tasks have to be done in the given order. While you try to execute them, speak aloud what you are doing right now and what you are thinking. We will be recording the screen movements and also what you are saying out aloud. After completing the tests, you will be asked to fill out a short feedback form.

1. Register as a new user.

    Make sure that you register as a **service provider**.

    Don't add a zip code.

2. Log in with your newly created profile.

3. Go to your profile page

4. Add a zip code to your profile. Save the changes.

5. Change your password. (Remember your new password.)

6. Sign out.

7. Log back in with your new password.

8. Have a look at all available services.

9. Create a new service yourself.

10. Take a look at the list of your own services.

11. Delete your account.

12. Try to log in with your deleted account.

Now, please switch to the other tab and fill out the feedback form.

Thank you for your cooperation.
